VOTER REGISTRATION NUMBERS

The percentage of turnout for the Presidential Primary Election is calculated on the total number of active registered voters in Salt Lake County because all registered voters are eligible to vote in a party primary.

To balance the percentages of eligible voters in the Republican and Democratic Primaries, the number of unaffiliated active voters was divided between both parties. Voters affiliated with other political parties were included in the total number for the Democratic Party since they were not eligible to vote in the Republican Primary.
